A WOMAN WHO WANTS HER BARE CREMATED.—Some time ago we published in these columns a report of some experi-ments made by Mr. S. M. Howard, the well known architect, with a crematory fornace of his invention. It seems that the report was pretty generally circulated, inasmuch, as a Chicago physician has applied to Mr. Howard to cremate the infant child of a patient. The letter was received on Saturday, and is as follows:

· CHICAGO, Jan. 18, 1877. M. Howard, Architect, Wheeling

I understand you are about to build cremating furnace in or near your city.
When will the work be completed? Is it
a private affair, or will it be open to the
patronage of those outside of your society? And if it is open to the patronage
of the public desiring cremation, what
will be your terms? will be your terms?

I am led to ask all this on behalf of a patient who has tried very hard to have the femains of her infant cremated by Dr. F. Please give me an early answer if possible, and oblige, Yours truly,

II. K. Graford, M. D.,

No. 243 State Street, cor. of Jackson.

Mr. Howard not being in the cremation business, respectfully declined to indulge the wishes of Dr. Graford's patient. His experiments were made simply to occupy a few leisure hours in the evening, and at the same time to satisfy himself upon the subject.

Mr. Reister nominated Mr. H. B. Ferguson. The roll being called Mr. Caldwell received 13 votes and Mr. Ferguson one.

Mr. Stone offered the following resolution: That the salaries of all officers elected by the Council be fixed prior to the election of said officers, and whereas, the regular committees are not yet appointed, therefore be it,

Resolved, That a special committee of three from each branch be appointed, of three from each branch be appointed, whom shall be referred the matter of the salaries of all said officers, who shall report upon the same at the next regular meeting of Council for its consideration.

The resolution was adopted.

There was received from the Second Branch a message enumerating the vote for and against the loan ordinance, and it appearing that three-fifths of the vote coast is in favor of ratifying the ordinance, the ordinance was pronounced adopted. The action of the Second Branch was concurred in.

There was also received from the Second Branch the tabulated returns for the second Branch and the tabulated returns for the second Branch and the tabulated returns for the second Branch at the second Branch at

While returning home in the evening Mr. Kelly stumbled in the snow and fell upon a sharp piece of ice, which cut his abdomen severely, and injured him internally.

The action of Council in refusing to declare Mr. Ripley elected City Sergeant caused considerable excitement about town on Saturday evening. The friends of Mr. Ripley have no occasion for alarm.

THE following gentlemen are talked of in connection with the Presidency of the Second Branch of Council: Dr. Thos. H. Logan, W. C. Handlan, Geo. Forbes, Dr. J. E. Reeves, Mortimer Pollock, L. E. There are twenty to twenty-five saloons in town, yet "nary" indictment was found against any of them by the Grand Jury.

There are fifteen to twenty great big, overgrown, dirty, greasy, lazy tramps in town, who have been bumming around town for more than a week. In the day-time they beg from door to door, and at night God only knows where some of them are, while some of them lodge at the dry house of the cooper shop at the lowerend of town, using the soft side of a slab for a couch. We pity, substantially too, genuine necessity, but have no sympathy for these professional gentlemen, who have become a bore to most of our citizens by their incessant begging, and we would respectfully, yet most urgently, urge our Council to provide a stone pile for the special benefit of these fifteen or twenty gentlemen. But if the Council, won't provide a nearus of ridding the place of these pests, we suggest that our citizens refer all tramps to the different emembers of the Council, and we'll bet that will soon bring them to a sense of their duty.
